

SECURITY INSTITUTE **MASTERCLASS**

25 March 2010

About Masterclasses

Security Institute **Masterclasses** have been developed in response to requests for more in-depth learning opportunities presented by subject experts and delivered in the open and approachable environment associated with Institute events.

Each **Masterclass** provides a minimum of 5 hours specialist learning for a limited audience, ensuring attendees can fully participate in the discussions, practical sessions and exercises. There are also opportunities for networking and sharing knowledge.

Protecting Crowded Places, Hazardous Sites and the Critical National Infrastructure

Venue: Victory Services Club,
63-79 Seymour Street, London W2 2HF
Tel: 020 7723 4474
Website: www.vsc.co.uk

National Counter Terrorism Security Office

*NaCTSO works in partnership with the Security Service to reduce the impact of terrorism in the United Kingdom. This **Masterclass** has been developed and will be delivered by Security Institute members **for** Security Institute members; providing an essential annual briefing on the latest advice and training available.*

Attendance at the event is worth

Content and Timings

10:30 Session 1 Chris Phillips Head of NaCTSO

National Strategic overview of the UK's protective security policies; how the threat is being matched by action on the ground.

Explains how the user pays principle creates difficulties but allows innovative thinking to take place.

11:30 Session 2 Kevin Bolton

Introduction to the different ways NaCTSO is working with industry and businesses to reduce the opportunity for terrorists to acquire weapons; introducing Project REVISE. Secure your Fertiliser and other projects.

13:15 Session 3 Lee Dodderidge

Introduction to a tool available to businesses to assess and gauge their own vulnerabilities to a Terrorist attack. The product then leads the user to a means to reduce their vulnerability to an attack.

14:00 Session 4 Paul Donlevey

This talk will demonstrate ways being cascaded to all areas of Crowded places to reduce their Vulnerability; in particular Education, Hotels and the Health Service products which have specific Project ARGUS awareness packages which include what to do when confronted with a Mumbai style attack.
